

EXECUTIVE ORDER

No 6: ENSURING THE COST-EFFECTIVENESS OF CONTRACTS FOR PERSONAL SERVICES

Qualified Personal Services Contract

Contractor: Sagem Morpho, Inc.

Type of Agreement: Amendment of Contract # C009289

Term: September 1, 2009 to August 31, 2010

Amount: \$6,400,000

Reason for Agreement:

This legislatively mandated contract is for Automated Finger Imaging System (AFIS) services to assist the OTDA and local social service districts in establishing positive identification and preventing multiple enrollments of individuals in public benefit programs through the use of an automated two digit (fingerprint) finger imaging identification system. The agreement expires August 31, 2009. OTDA is currently finalizing bidder scoring for the procurement of the AFIS.

The procurement calls for the replacement, customization, development and implementation of a new system. This includes the interfaces between AFIS and the WMS, the Common Benefit Identification Card System (CBIC), as well as, the NYC Department of Homeless Services and the NYC Paperless Office System. The new RFP establishes a five-month transition timeframe beginning thirty (30) days following the approval of the Agreement by the Office of the State Comptroller.

In order to maintain continuity of the current system and its interface with the Common Benefit Identification Card production system, until such time as the new system is operational, it will be necessary to enter into a month to month extension of the current contract. Accordingly, this month to month extension for a period of up to 12 months with a 60 day termination clause is necessary.
