Note: Data pursuant to a New York State Legislative mandate S. 6057-B/A. 9557-B, Chapter 57, L. 2004.

Based on local district claims submitted on claims Schedules A and C. Includes reimbursable expenditures for basic assistance, rent supplements, family shelters, domestic violence shelters, security deposits, transitional services, diversion transportation, diversion payments, and other non-assistance. These claims are net of cancellations and refunds, and include any reconciliations and supplemental claims applied to the month after initial expenditure reporting is done. Thus, these data differ from the expenditure data presented elsewhere in this document, which are derived from original payment issuance activity during the month, net of cancellations and refunds in that month.

District claiming activity for recent months is generally not complete before the statutorily required due date for this report. Thus, claims for recent months may appear substantially below those for earlier months. Claims tables in future months of this report will continue to include the historical periods above, adjusted for claiming activity occurring subsequent to this report.

Note: Data pursuant to a New York State Legislative mandate S. 6057-B/A. 9557-B, Chapter 57, L. 2004.
Based on local district claims submitted on claims Schedules A and C. Includes reimbursable expenditures for basic assistance, rent supplements, family shelters, domestic violence shelters, security deposits, transitional services, diversion transportation, diversion payments, and other non-assistance. These claims are net of cancellations and refunds, and include any reconciliations and supplemental claims applied to the month after initial expenditure reporting is done. Thus, these data differ from the expenditure data presented elsewhere in this document, which are derived from original payment issuance activity during the month, net of cancellations and refunds in that month.
District claiming activity for recent months is generally not complete before the statutorily required due date for this report. Thus, claims for recent months may appear substantially below those for earlier months. Claims tables in future months of this report will continue to include the historical periods above, adjusted for claiming activity occurring subsequent to this report.

* Statewide and New York City participation rates are estimated from federal disaggregated reporting samples, which are the source of the rates used by the United States Department of Health and Human Services to determine if a state has met participation goals. Because the sample size is insufficient to permit rate estimates for non-New York City districts, rates for those districts are derived directly from automated systems data. Thus, Rest of State and New York City numerators and denominators will not sum to the statewide total. Estimates are from the latest available quarterly sample.

* Statewide and New York City sanction rates are estimated from federal disaggregated reporting samples, which are the source of such data used by the United States Department of Health and Human Services to determine if a state has met participation goals. Because the sample size is insufficient to permit sanction estimates for non-New York City districts, data for those districts are derived directly from automated systems. Thus, Rest of State and New York City counts may not sum to the statewide total. This table uses a federal definition of sanction and includes only persons who are deemed a work eligible individual and are sanctioned for non-compliance for work or substance abuse requirements. Estimates are from the latest available quarterly sample.
