6 Hours of Work per Week \7_	21.7	± 0.3	21.1	22.3
* Due to the small sample size, the standard error and confidence limits were not computed.				

General Comments:

The figures presented on these tables are based on Federal Fiscal Year 1998 data from the TANF quarterly reports submitted by New York State. Participation rates, characteristics and financial circumstances from these submittals have been officially released after review by the U.S. Department of Health and Human Services/Administration for Children and Families (HHS/ACF).

The data published in this report reflect all individuals engaged in work activities, regardless of the number of hours in these activities, rather than only those meeting more restrictive participation criteria, as published by the HHS/ACF. Sample results for each month were inflated to reflect the universe of TANF cases as reported in Section 3 of the TANF quarterly report. For the count of each individual activity/transaction/characteristic appearing in this report, we followed the Federal methodology that averages monthly data to obtain fiscal year figures.

See Footnotes

NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE

Data Related to Work Activities Subsidized or Otherwise Sponsored

Footnotes:

- 1_ Average monthly number of TANF participants in subsidized work activities (subsidized private and public employment, and on-the-job training), work experience, job search/job readiness training, community service program, or providing child care services to an individual who is participating in a community service program. Recipients may be participating in more than one work activity. Subsidized work activities are not the only activities that count toward federal participation rate requirements. Additional activities can be found in Sections 149.2.d and 149.2.e.
- 2_ Average monthly number of disabled individuals who are exempt from participating in work activities. Under Section 332-b of the Social Services Law, disabled individuals who are determined to be unable to engage in work activities are exempt in New York from participating in work activities. Despite this exemption, the TANF family is included in the calculation of the participation rate.
- 3_ Average monthly number of individuals exempt from participating in work activities for other reasons. These data reflect recipients who are exempt from participating in work activities due to age, caring for a disabled family member in the home, being a victim of domestic violence, and VESID involvement. Despite this exemption, the TANF family is included in the calculation of the participation rate.
- 4_ Average number of one-parent cases that have a child less than 1 year old who are disregarded from the participation rate calculation. Single custodial parents, or caretakers with a child under 12 months of age, who have not been required to participate are disregarded from the rate. The TANF family is thus excluded from the calculation of the participation rate. This disregard is limited to 12 months total during the 60 months lifetime limit.
- 5_ Average monthly number of sanctioned individuals who are disregarded from the participation rate calculation. These data reflect recipients that are required to participate, but have been sanctioned for not participating. The cases in which these individuals are included are disregarded from the participation rate calculation as a result of being sanctioned during the reporting month, unless the case meets the required participation rate hours. These cases may be excluded from the calculation of the participation rate for up to 3 months during each federal fiscal year.
- 6_ Average monthly number of TANF participants in work activities by activity.
- 7_ Average number of hours of participation per week per TANF participant in work activities.

* Note: The standard error, or standard deviation, of a sample estimate indicates how close the sample estimate comes to the corresponding unknown measurement for the entire population. The standard error of a sample estimate gives us the precision, that is, the range in which the true population value most likely falls. The true population value is expected to lie between these limits. The confidence levels give us the likelihood or probability that it will fall within that range, that is, the assurance that the true value would fall in this range. A 95% confidence level tells us that if we pick 100 similar samples from the population, the sample estimate would fall within approximately plus or minus 2 standard errors of the true value in 95 of those samples. (These are referred to as the upper and lower confidence limits.)

For example, the annual average of the number of recipients of public assistance found to be exempt due to a disability is 41,800 with standard error 2,300. The lower confidence limit is $41,800 - (2)(2,300) = 37,200$, and the upper confidence limit is $41,800 + (2)(2,300) = 46,400$. While it is not likely that the true population value is exactly 41,800 (the value based on the sample), we are 95% confident that the true population value is between 37,200 and 46,400.

The standard errors of the number of participants possessing a given characteristic, e.g. engaged in a certain type of work activity, were obtained by calculating the standard error of the proportion of those individuals in the sample. The proportions were then applied to the total population of the TANF cases. Therefore, the result is a measure of the number of participants with a given characteristic in the entire population.

The results obtained were based on monthly stratified samples and the stratification process varied, thus the results are approximate. Stratification is a statistical process in which the total population is divided into mutually exclusive subpopulations, prior to sampling. This process was required by the federal government in order to better gauge the characteristics of the subpopulations.

1999 STATISTICAL REPORT ON THE OPERATIONS OF NYS TEMPORARY ASSISTANCE PROGRAMS

NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE

C. Expenditures in Support of Work Activities

	Work Activities October 1997 through September 1998			
	<u>FEDERAL</u>	<u>STATE</u>	<u>LOCAL</u>	<u>TOTAL</u>
Family Assistance (TANF - 265 Fund)	\$ 82,097,996	\$ 36,131,440	\$ 27,662,548	\$ 145,891,984
Safety Net	\$ - 0 -	\$ 8,311,744	\$ 7,642,953	\$ 15,954,697
FSET (Food Stamp - 261 Fund)	<u>\$ 27,722,768</u>	<u>\$ 11,179,663</u>	<u>\$ 11,164,704</u>	<u>\$ 50,067,135</u>
TOTAL	\$ 109,820,764	\$ 55,622,847	\$ 46,470,205	\$ 211,913,816

All of the activities supported by the expenditures shown in the chart above are designed to emphasize work and work preparation activities including basic education and post-secondary education.

The above expenditures cannot be distributed by county as several of the welfare employment programs are administered by providers who serve a multi-county geographic area.

Section 149.2.d.

Data related to unsubsidized work activities

*Department of Labor
Office of Temporary and Disability Assistance*

1999 STATISTICAL REPORT ON THE OPERATIONS OF NYS TEMPORARY ASSISTANCE PROGRAMS

NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE

	Annual Averages (10/97 - 9/98)	Approximate Standard Error	Approximate 95% Confidence Limits	
			Lower	Upper
D. Data related to Unsubsidized Work Activities				
1 No. of Recipients Hired \8_	45,700	± 2,300	41,100	50,200

(Also see **General Comments** in the work activities table Section 149.2.c.)

\8_ Average monthly number of TANF participants in unsubsidized employment. These data reflect active recipients with budgeted earned income. Unsubsidized employment is not the only activity that counts toward federal participation rate requirements. Additional activities can be found in Sections 149.2.c and 149.2.e.

* **Note:** The **standard error**, or standard deviation, of a sample estimate indicates how close the sample estimate comes to the corresponding unknown measurement for the entire population. The standard error of a sample estimate gives us the precision, that is, the range in which the true population value most likely falls. The true population value is expected to lie between these limits. The confidence levels give us the likelihood or probability that it will fall within that range, that is, the assurance that the true value would fall in this range. A 95% confidence level tells us that if we pick 100 similar samples from the population, the sample estimate would fall within approximately plus or minus 2 standard errors of the true value in 95 of those samples. (These are referred to as the upper and lower confidence limits.)

For example, the annual average of the number of recipients of public assistance found to be exempt due to a disability is 41,800 with standard error 2,300. The lower confidence limit is $41,800 - (2)(2,300) = 37,200$, and the upper confidence limit is $41,800 + (2)(2,300) = 46,400$. While it is not likely that the true population value is exactly 41,800 (the value based on the sample), we are 95% confident that the true population value is between 37,200 and 46,400.

The standard errors of the number of participants possessing a given characteristic, e.g. engaged in a certain type of work activity, were obtained by calculating the standard error of the proportion of those individuals in the sample. The proportions were then applied to the total population of TANF cases. Therefore, the result is a measure of the number of participants with a given characteristic in the entire population.

The results obtained were based on monthly stratified samples and the stratification process varied, thus the results are approximate. Stratification is a statistical process in which the total population is divided into mutually exclusive subpopulations

NEW YORK STATE OFFICE DEPARTMENT OF HEALTH

Expansion of Family Planning and CBAPP Programs funded by TANF Funds

New York State's FY 1997-1998 State Budget included a provision to transfer \$7 million of federal Temporary Assistance for Needy Families (TANF) funds to the New York State Department of Health. Appropriate legislation required that the funds be targeted to programs of community health education and outreach and community based adolescent pregnancy prevention to prevent unintended pregnancy in both adults and adolescents eligible for assistance under TANF. These funds were utilized to significantly expand the Department's Community Based Adolescent Pregnancy Prevention Program (CBAPP) and the Comprehensive Family Planning and Reproductive Health Program.

The Community Based Adolescent Pregnancy Prevention Program provides peer and parent education, youth development and outreach to high risk adolescents. The Family Planning Program provides comprehensive family planning and reproductive health services including medical services, health education and outreach to low income, uninsured women.

CBAPP programs work with peers, schools, parents, community health and human services organizations, local governments, businesses and the media to reduce adolescent pregnancy in targeted high risk communities. Over thirty CBAPP contractors provide services in over 50 high risk areas in the state. Major program strategies include:

- > Providing community information and education to sensitize the public about the local need to address the prevention of unintended pregnancy among adolescents;
- > Promote abstinence and delay the onset of sexual activity among all adolescents;
- > Expand educational, recreational and vocational opportunities for teens to provide alternatives to sexual activity and develop skills that can lead to higher earning power and reduce the need for public assistance; and,
- > Provide access to comprehensive reproductive health care services to sexually active teens to prevent pregnancies, sexually transmitted diseases and HIV infection.

Funding was also provided to 65 family planning agencies that provide services in over 230 service sites. The addition of TANF funding permitted these providers to expand outreach and education activities in community settings, including schools, to educate children and adults regarding reproductive health and to provide programs to prevent adolescent pregnancy. TANF funding has provided an opportunity to focus the expansion of the program on state and federal priorities including:

- > Provision of community education, public information, and, counseling to prevent adolescent pregnancy and increase access to clinic services for teens who are already sexually active;
- > Increase outreach to women not likely to seek services, including traditionally underserved minorities and homeless and substance abusing women; and
- > Improved access in underserved areas to women and adolescents at risk for unintended pregnancy

TANF funding has allowed the family planning and CBAPP programs to increase their health education component. There are now more than 100 full time family planning educators serving all counties of the State. These educators provide more than 17,000 community education and training sessions for adolescents and adults, and conduct outreach activities in schools, at health fairs, and in the community. Over 800 middle and high schools received school based education sessions.

Section 149.2.j.

Data related to disabled and work-limited recipients of public assistance pursuant to provisions of the welfare reform act of 1997

*Department of Labor
Office of Temporary and Disability Assistance*

1999 STATISTICAL REPORT ON THE OPERATIONS OF NYS TEMPORARY ASSISTANCE PROGRAMS

NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE

	Annual Averages (10/97 - 9/98)	Approximate Standard Error	Approximate 95% Confidence Limits	
			Lower	Upper
J. Data related to disabled and work-limited recipients				
4 No. of current recipients of public assistance found to be disabled \11	41,800	± 2,300	37,200	46,400

(Also see **General Comments** in the work activities table Section 149.2.c.)

\11_ Average monthly number of disabled individuals who are exempt from participating in work activities. Under Section 332-b of the Social Services Law disabled individuals who are determined to be unable to engage in work activities are exempt in New York from participating in work activities. Despite this exemption, the TANF family is included in the calculation of the participation rate.

*** Note:** The **standard error**, or standard deviation, of a sample estimate indicates how close the sample estimate comes to the corresponding unknown measurement for the entire population. The standard error of a sample estimate gives us the precision, that is, the range in which the true population value most likely falls. The true population value is expected to lie between these limits. The confidence levels give us the likelihood or probability that it will fall within that range, that is, the assurance that the true value would fall in this range. A 95% confidence level tells us that if we pick 100 similar samples from the population, the sample estimate would fall within approximately plus or minus 2 standard errors of the true value in 95 of those samples. (These are referred to as the upper and lower confidence limits.)

For example, the annual average of the number of recipients of public assistance found to be exempt due to a disability is 41,800 with standard error 2,300. The lower confidence limit is $41,800 - (2)(2,300) = 37,200$, and the upper confidence limit is $41,800 + (2)(2,300) = 46,400$. While it is not likely that the true population value is exactly 41,800 (the value based on the sample), we are 95% confident that the true population value is between 37,200 and 46,400.

The standard errors of the number of participants possessing a given characteristic, e.g. engaged in a certain type of work activity, were obtained by calculating the standard error of the proportion of those individuals in the sample. The proportions were then applied to total population of the TANF cases. Therefore, the result is a measure of the number of participants with a given characteristic in the entire population.

The results obtained were based on monthly stratified samples and the stratification process varied, thus the results are approximate. Stratification is a statistical process in which the total population is divided into mutually exclusive subpopulations, prior to sampling. This process was required by the federal government in order to better gauge the characteristics of the subpopulations.

Welfare Reform Act of 1997

**(section 149 of Part B of
Chapter 436 of the Laws of 1997)**

Welfare Reform Act of 1997

(section 149 of Part B of Chapter 436 of the Laws of 1997)

S 149.

1. The department of social services or its successor agencies and the department of labor shall collect data related to the operation of public assistance programs including, but not limited to, information that must be submitted to the department of health and human services pursuant to the personal responsibility and work opportunities reconciliation act of 1996 (P.L. 104-193) and any other provision of federal or state law or regulations governing programs administered under title iv-a of the social security act or the social services law. Social services districts shall assist each agency in accumulating such data in accordance with instructions from the appropriate agency.
2. Each agency shall make reasonable efforts to collect and maintain the data required pursuant to this subdivision. Data collection shall begin as soon as practicable, but in no case later than upon the completion of the redesign of the welfare management system and the completion of welfare to work caseload management system. The responsible agency shall collect the data related to applicants and recipients of public assistance programs established pursuant to the personal responsibility and work opportunities reconciliation act of 1996 (P.L. 104-193) and the social services law including, but not limited to, the following:
 - a. Data related to applicants seeking public assistance including but not limited to:
 1. Number of applicants accepted to participate in each program;
 2. Number of applicants who are denied public assistance and the reason for denial;
 3. Number of applicants who were previous recipients of public assistance on or after December 2, 1997 including length of time previously on assistance; reason for initial termination; length of time between termination and reapplication; and reason for reapplication; and
 4. Number of applicants who have resided in the state for fewer than twelve months at the time of application.
 - b. Data related to recipients of public assistance including but not limited to:
 1. Number of terminated recipients of public assistance and reason for termination; and
 2. Number of recipients that move between public assistance programs.
 - c. Data related to work activities subsidized or otherwise sponsored by the department of social services, its successor agencies, the department of labor, or social services districts including but not limited to:
 1. Number of recipients participating in work activities;
 2. Number of recipients receiving an exemption from participating in work activities;
 3. The duration of and reasons for such exemptions;
 4. Number of participants receiving subsidized child care and the number of exemptions granted due to lack of available child care;
 5. The type of work activities;
 6. Hours of work per week per recipient;
 7. Duration of enrollment in such work activity;
 8. Reason for termination from work activity;
 9. Number of requests for administrative hearings related to work activity participation including the nature of such requests by general categories and the outcome of such hearings;
 10. Number of participants receiving subsidized transportation services;
 11. Participant retention in work activities by type of work activity;
 12. Length of time before assignment to a work activity;

Welfare Reform Act of 1997

(section 149 of Part B of Chapter 436 of the Laws of 1997)

13. Number of recipients changing work activity assignments and reasons for such changes; and
 14. Expenditures by social services districts in support of work activities.
- d. Data related to unsubsidized work activities including but not limited to:
1. Number of recipients hired;
 2. Initial rate of pay by either annual salary or wage basis;
 3. Retention rates;
 4. Means of obtaining unsubsidized employment including, but not limited to, referral by the social services district and direct contact with employer; and
 5. Number of participants receiving subsidized child care and/or transportation services.
- e. Data related to recipient training and education activities including but not limited to:
1. Number of recipients in training or educational activities by type of activity;
 2. Number of recipients mandated to attend training or education activities that fulfill work participation requirements;
 3. Length and duration of training or education activity including the number of hours per week and duration;
 4. Number of recipients receiving subsidized child care and/or transportation services;
 5. Number of recipients transferred to work activities;
 6. To the extent available, the number of recipients who obtain work directly from training or education activities including starting salary and employee retention rates; and
 7. Expenditures by social services districts in support of training and education activities.
- f. Data related to recipient sanctions including but not limited to:
1. Number of sanctions, by type of sanction;
 2. Number of sanctions with defined minimum period, by type of sanction;
 3. Average length of sanction until recipient compliance, by type of sanction;
 4. Amount of sanction, by type of sanction;
 5. Period of time starting on or after December 2, 1996 that the participant was in the program prior to the sanction;
 6. Number and outcome of administrative hearings related to sanctions, by type of sanction; and
 7. Number of sanctions against entire assistance unit.
- g. Data related to case closings including but not limited to:
1. Number of case closings;
 2. Reason for case closing including, but not limited to, self-termination without reason;
 3. Length of time receiving assistance on or after December 2, 1996 before case closing;
 4. On an aggregate basis, the length of time recipients do not receive public assistance in New York state following case closing occurring on or after December 2, 1996; and
 5. Number of former public assistance recipients receiving subsidized child care and/or transitional medical assistance.
- h. Data related to substance abuse treatment programs including but not limited to:

Welfare Reform Act of 1997

(section 149 of Part B of Chapter 436 of the Laws of 1997)

1. Number of recipients receiving substance abuse treatment services for which the cost of such services is paid for by the social services district using public assistance monies;
 2. Length of reimbursed recipient participation in treatment program; and
 3. Types of substance abuse treatment programs receiving reimbursement from social services districts.
- i. Data related to pregnancy prevention programs funded through federal monies received by the state pursuant to title iv-a of the social security act including but not limited to:
1. Number of program participants;
 2. Duration of program participation; and
 3. Types of services provided.
- j. Data related to disabled and work limited recipients of public assistance pursuant to provisions of the welfare reform act of 1997 including, but not limited to:
1. Number of persons applying for public assistance that are screened;
 2. Number of current recipients of public assistance screened;
 3. Number of persons applying for public assistance that are found to be disabled;
 4. Number of current recipients of public assistance found to be disabled;
 5. Number of persons applying for public assistance found to be work limited;
 6. Number of current recipients of public assistance found to be work limited;
 7. Duration of finding by category;
 8. Number of changes in work activity exemption status;
 9. Number and outcome of administrative hearings related to the disability screening and the determination of work activity exemptions; and
 10. Data relating to work and training and education activities pursuant to subsections c, d and e of this section.
- k. Data related to the food assistance program including but not limited to:
1. Number of applicants under eighteen years of age by chronological age;
 2. Number of applications denied by reason for denial;
 3. Number of recipients under eighteen years of age by chronological age and the average amount of food assistance benefits per recipient issued by the social services district;
 4. Number of recipients under eighteen years of age by case and by household and the average amount of food assistance benefits issued per case and per household by the social services district;
 5. Number of recipients under eighteen years of age in a case and/or in a household where other individuals in the case and/or household are in receipt of federal food stamp benefits and the average amounts of federal and state food stamp benefits issued per case and/or per household by social services district;
 6. Number of recipients under eighteen years of age in a case or household receiving other public assistance benefits and the average amounts of food assistance benefits issued per recipient and per public assistance case by the social services district;
 7. Number of case closings for cases where the recipient is under eighteen years of age by reason for case closing including but not limited to case closing as a result of naturalization;
 8. Number of applicants applying for food assistance benefits where the primary reason for potential eligibility is a disability as defined by provisions of this act establishing a food assistance program;
 9. Number of applications denied by reason for denial;

Welfare Reform Act of 1997

(section 149 of Part B of Chapter 436 of the Laws of 1997)

10. Number of disabled recipients by chronological age and the average amount of food assistance benefits per recipient issued by the social services district;
 11. Number of disabled recipients by case and by household and the average amount of food assistance benefits issued per case and per household by the social services district;
 12. Number of disabled recipients in a case and/or in a household where other individuals in the case and/or household are in receipt of federal food stamp benefits and the average amounts of federal and state food stamp benefits issued per case and/or per household by social services district;
 13. Number of disabled recipients in a case or household receiving other public assistance benefits and the average amount of food assistance benefits issued per recipient and per public assistance case by the social services district including, but not limited to, receipt of federal and/or state supplemental payment made pursuant to title xvi of the social security act;
 14. Number of case closings for cases where the recipient is disabled by reason for termination including but not limited to case closing as a result of naturalization;
 15. Number of applicants applying for food assistance benefits where the primary reason for potential eligibility is that the applicant is elderly as defined by provisions of this act establishing a food assistance program;
 16. Number of applications denied by reason for denial;
 17. Number of elderly recipients by chronological age and the amount of food assistance benefits per recipient issued by the social services district;
 18. Number of elderly recipients by case and by household and the average amount of food assistance benefits issued per case and per household by the social services district;
 19. number of elderly recipients in a case and/or in a household where other individuals in the case and/or household are in receipt of federal food stamp benefits and the average amount of federal and state food stamp benefits issued per case and/or per household by the social services district;
 20. Number of elderly recipients in a case or household receiving other public assistance benefits and the average amount of food assistance benefits issued per recipient and per public assistance case by the social services district including, but not limited to, receipt of federal and/or state supplemental payment made pursuant to title xvi of the social security act; and
 21. Number of case closings for cases where the recipient is elderly by reason for termination including but not limited to case closing as a result of naturalization; and
 22. Number and outcome of administrative hearings related to the food assistance program by general category.
- I. Data related to the domestic violence screening process including but not limited to:
 1. Number of applicants and recipients screened;
 2. Number of positive findings;
 3. Number of waivers by category granted as a result of a positive finding; and
 4. Duration of such waiver.
 3. To the extent possible, the data collection activities required by this act shall be designed to collect data in the least expensive and least time consuming manner possible. Scientifically acceptable statistical sampling methods may be used to collect and maintain data on an aggregate basis when authorized by the department of health and human services or when the commissioner of social services or commissioners of its successor agencies determines that collection of such data by any other means is not

Welfare Reform Act of 1997

(section 149 of Part B of Chapter 436 of the Laws of 1997)

practicable or would result in significant additional costs. To the extent that statistical sampling is used to collect and maintain data, and unless otherwise required by the department of health and human services, the sample size shall be no larger than the sample size required by the United States department of agriculture for food stamp quality control purposes pursuant to the food stamp act of 1977 and subsequent amendments.

4. The commissioner of social services or commissioners of its successor agencies, and the commissioner of labor shall provide reports summarizing data collected pursuant to this act to the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee. The first such report shall be provided to the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee no later than December 2, 1998 and annually thereafter. The commissioner of social services or the commissioners of its successor agencies, in conjunction with the commissioner of health and the commissioner of labor, shall provide the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee with an annual report summarizing data collected pursuant to this act.
5. Each agency shall provide the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee with all reports filed with the department of health and human services pursuant to the data collection and reporting requirements of the personal responsibility and work opportunities reconciliation act of 1996 (P.L. 104-193).
6. The commissioner of social services or the commissioners of its successor agencies, in conjunction with the commissioner of labor, and the commissioner of health shall develop a plan to provide the legislature with the ability to have online access to the welfare management system and the welfare to work caseload management system upon completion of the redesign of the welfare management system and implementation of the welfare to work caseload management system for purposes of obtaining aggregate program data. Such plan shall provide for security measures necessary to ensure the confidentiality of data residing on the welfare management system and the welfare to work caseload management system in conformance with all applicable federal and state laws and regulations. The plan shall be submitted to the temporary president of the senate and the speaker of the assembly no later than February 15, 1998.
