# **2006 Statistical Report On the Operations of New York State Temporary Assistance Programs**

## **Introduction and Summary**

This report was prepared in fulfillment of the reporting requirements contained in the Welfare Reform Act of 1997, and was compiled by the Office of Temporary and Disability Assistance (OTDA) with data developed by OTDA and the Department of Health (DOH).<sup>i</sup> Although the law only requires that reporting should begin upon the completion of the redesign of the Welfare Management System and the completion of the Welfare-to-Work Caseload Management System, recent improvements in our data infrastructure, including the continued development of the Welfare Reporting and Tracking System, allow us to report on a large proportion of the required data using currently available sources. As our data structure continues to improve, we will increase both the quality and quantity of our reporting.

The time period covered in most of this report's sections is July 2005 through June 2006 (referred to as the report year). This time period was selected to allow for the compilation of a years worth of data prior to the end of calendar year issuance date of the report.

What follows is a brief summary of current trends in the Temporary Assistance caseload for the July 2005 to June 2006 time period, and a high level summary of the data supplied in the main body of the report.

## **Recent Caseload Trends**

Figure 1 illustrates the trend in total Temporary Assistance (TA) recipients for the July 2005 to June 2006 period. During this time, the total recipient count decreased by 24,821, from 559,148 to 574,327, or 4.1%. This percentage decrease equals that observed over the same period one year previous, where there was a net decrease of 26,138 recipients. We have experienced a fairly steady downward trend in total TA recipients since May of 2004. Historically, the recipient count for June is the lowest since November 1962, and significantly below the all-time peak recipient count of 1,661,331 attained in April 1994.

**Figure 1: New York State Temporary Assistance Recipients  
July 2005 to June 2006**

The reduction in recipient counts over the last year has not been consistent across all case classifications. Specifically, caseload reductions in “family” cases have been somewhat offset by increases in the “singles” category. Figure 2 shows the recipient count change for the report period for “family” cases as a whole, and for each of this category’s components: 1) recipients in the Temporary Assistance to Needy Families (TANF) program (which in turn consists of Family Assistance (FA) and a small number of federally funded Safety Net Assistance (SNA) families where an adult in the case is mandated to drug treatment), and 2) former TANF cases in the SNA program by virtue of exceeding the TANF 60 month time limit or being barred from TANF receipt due to their alien status. These cases are referred to as SNA Maintenance of Effort (SNA MOE) cases because expenditures on these cases, while not TANF eligible, count toward a state’s requirement to maintain a certain level of historical assistance expenditures on families in order to access their TANF block grant funds.

**Figure 2: Recipients in Family (TANF and SNA MOE) Cases  
July 2005 to June 2006**

There was a 32,090 or 7.0% decrease in the number of recipients in the family case category. This decrease was the result of an 18,662 or 6.0% recipient decrease in TANF, and a 13,428 or 9.2% decrease in the SNA MOE category.

By contrast, Figure 3 shows the recipient count for “traditional” Safety Net Assistance (SNA) cases, usually referred to as “singles” cases since they consist primarily of one-person adult cases.<sup>ii</sup> The number of recipients in this category increased by 7,269, from 143,258 to 150,527, or 5.1%. This increase is approximately one-quarter of that observed in the year previous to the report period.

**Figure 3: Recipients in Singles (SNA Non MOE) Cases  
July 2005 to June 2006**

## Report Summary

This summary, and the report as a whole, is organized by section headings that refer directly by letter to the subsections of the reporting requirements in statute. In some cases, reporting requirements for a particular section overlap with those in other sections. When this occurs, appropriate cross-references will be provided in the body of the report.

### Section (a): Applications

Section (a) provides district level and statewide information on the number of applications approved, withdrawn and denied, and the reasons for denials, for TA as a whole and for the FA and SNA categories. These numbers are summarized in Table 1. Of all applications processed, 44.7% were approved, 23.8% were withdrawn and 31.4% were denied. These rates are, and continue to be, very similar for the FA and SNA categories.

**Table 1: Applications Approved, Withdrawn and Denied  
July 2005 to June 2006**

	Applications Approved	Applications Withdrawn	Applications Denied
Total Temporary Assistance	307,595	163,847	215,821
Family Assistance	104,025	54,583	71,112
Safety Net Assistance	203,570	109,264	144,709

The main reasons for application denials were failure to comply with application requirements, either employment-related requirements (20,130 or 9%) or other requirements, such as failure to appear for interviews or failure to provide documentation (107,746 or 50%). Denials related to financial issues (income and resources) totaled 23,503, or 11% of denials. A large number of denials (54,838 or 25%) fell into a miscellaneous “other” category. Most of the denial codes in this category fail to identify a clear reason for the denial, since the code used requires the caseworker to manually write in a “close” reason. Other denials in this category include failure to locate the recipient, and cases where TA is denied but emergency assistance is provided.

### **Section (b): Case Closings and Transfers**

Section (b) provides district level and statewide information on the number of case closings, and closing counts by reason for closing, for TA as a whole and for the FA and SNA categories. It also provides district level and statewide information on transfers between the FA and SNA case categories that occurred during the year.

Case closings totaled 310,948 for TA, 101,253 for FA and 209,695 for SNA. Overall, the most common reasons for case closings were failure to comply with program requirements not related to employment, including failure to recertify (128,312 or 41.3%, financial issues (69,307 or 22.3%) and failure to comply with employment requirements (53,279 or 17.1%). As was the case for denials, a large number of closings fell into the “other” category, mostly situations where the reason for closing was not clearly defined in the closing code. The “other” category constituted 20,752 or 6.7% of closings.

Transfers from SNA to FA totaled 9,542 for the report year. Such transfers can occur for many reasons, including when an adult in an SNA case has a child, a time limited SNA case receives a time limit exemption, or an adult whose cash assistance count causes the case to be time limited leaves the household. Transfers in the opposite direction - from FA to SNA - totaled 21,444. While a substantial portion of these cases move from FA to SNA due to time limits,<sup>iii</sup> there are other reasons these transfers occur. The current FA to SNA transfer count is substantially below the 58,886 such transfers reported in 2002, early after the onset of time limits, but consistent with the 21,053 transfers occurring last year.

### **Sections c, d and e: Subsidized Work Activities, Unsubsidized Work Activities and Training and Educational Activities**

Data on work activities are based on two data sources, depending on the category of cases reported. For TANF and SNA MOE cases, the data source is the quarterly disaggregated data reports submitted by New York State to the US Department of Health and Human Services for the purposes of reporting and calculating federal work participation rates.<sup>iv</sup> These reports contain detailed data on a representative sample of TANF and SNA-MOE cases, and are the only source of statewide data on federal work activities. The use of sample data for these purposes is necessary primarily because the definitions of work activities for these cases changed in the middle of the report year due to the TANF reauthorization provisions of the Deficit Reduction Act of 2005, and thus consistently defined systems-based work data, especially for SNA MOE cases, is not available throughout the report year. For SNA non-MOE cases, the data source is the systems-derived and district-submitted Safety Net Cases without Dependent Children Participation Rate reports, which allow district level data on work activities.<sup>v</sup>

Section c provides statewide TANF and SNA-MOE sample-derived data on the average monthly number of recipients participating in subsidized or otherwise sponsored work activities, the number of cases disregarded in the calculation of the federal work participation rates, the type of work activities engaged in and the hours of work engaged in per week. Data on the number of cases receiving subsidized child care are available for the first time. For the SNA non-MOE cases, this section provides monthly average participants in each subsidized or otherwise

sponsored work activity at the district level. Also included are systems-derived data on the number of non-exempt and exempt adult recipients in all three case types, with the non-exempts divided into those that are work limited and those that are not, and the exempts divided into three categories, disability or illness, substance abuse and other (with the other category consisting primarily of caretaker situations). Finally, Section c includes data on federal and state expenditures on work activities, including Food Stamp Employment and Training expenditures.

Section d contains data on the number of TANF, SNA MOE and SNA non-MOE recipients participating in unsubsidized employment, and Section e contains data on the number of recipients in training and education activities. For the TANF and SNA-MOE groups, the average number of hours of participation is included.

The sample data show an estimated monthly average of 14,293 TANF recipients and 5,283 SNA MOE recipients in subsidized or otherwise sponsored work activities (including subsidized public and private sector employment, work experience, on the job training, job search/job readiness training and community service activities). The average hours of participation per week in these work activities were 28.5 and 29.3 for the TANF and SNA MOE recipients, respectively. Also, an estimated monthly average of 17,548 TANF recipients and 14,797 SNA MOE recipients participated in unsubsidized employment, and an estimated monthly average of 3,681 TANF recipients and 1,220 SNA MOE recipients participated in training or educational activities (including vocational education, job skills training, employment related education and school attendance). The average number of hours per week participants spent in education and training activities was 29.3 and 34.5 hours for TANF and SNA MOE cases, respectively.

For SNA non-MOE, a monthly average of 16,691 recipients participated in subsidized or otherwise sponsored work activities, 5,187 participated in unsubsidized employment, and 154 in training and education activities.

For the state as a whole, 30,444 TANF recipients, 12,079 SNA-MOE recipients and 73,396 SNA non-MOE recipients were exempt from work activities. This represents 36% of TANF recipients, 23% of SSP-MOE recipients and 64% of SNA non-MOE recipients. In addition, 3,118 TANF recipients (3.7%), 3,607 MOE recipients (7%) and 8,266 SNA non-MOE recipients (7%) were listed as work limited.

Federal, state and local expenditures in support of work activities totaled \$427,093,654 for the October 2004 to September 2005 period. Note this period is different from the report period so a full federal fiscal year total is available.

## **Section f: Sanctions**

Section f provides statewide and district level data on the monthly average number of recipients in sanction status, the type of sanction, the number of recipients that complied, and the average days to compliance in TANF, SNA MOE (time limited) and SNA Non-MOE cases.<sup>vi</sup> The monthly average number of sanctioned persons for the report year was 36,231, which represents about 15% of the 249,341 monthly average number of adult recipients for the period. Most (31,611 or 87%) of these sanctioned persons had an employment-related sanction. Each month, an average of 3,110 persons complied with requirements and ended their sanction. The average length of time to compliance for these cases was 149 days.

Section f also provides district level and statewide data on the number of sanction-related fair hearings requested, the number of hearings held, and the outcomes of these hearings, for the full report year.<sup>vii</sup> These data are reported separately for total TA, FA and SNA cases. Readers of this section should note that the numbers reported are based on issues addressed, not hearings per se: more than one issue can be addressed at a hearing, and separate issues addressed at the same hearing can have different outcomes.

For the purposes of economy of presentation, Section f also contains fair hearings data on work related issues, since these overlap with sanction-related hearings and follow a similar format. Also included in this section are data on the number and outcomes of administrative disqualification hearings, i.e., hearings initiated by districts.

Due to the large number of issues addressed in the fair hearings section, they will not be summarized here. Readers should note, however, that outcome numbers will not sum exactly to hearing numbers since some issues initiated during the report year may still have been pending at the end of the report year.

### **Section g: Closings to Medicaid**

All data available to meet the requirements of this section were presented in Section b, except for data on transitional Medicaid receipt. Here we report statewide and district level data on the percentage of persons from closed “family” cases (TANF or SNA MOE cases) that were Medicaid eligible in the fourth month following case closing, in the situation where those persons have not returned to assistance. We are reporting data for two time periods in the current report year, the final quarter (October to December) of 2005 and the second quarter (April to June of 2006). For the state as a whole, we find about 57% percent of persons closed in these case types are Medicaid eligible four months later. There is substantial district variation on this measure, with many districts showing very high rates of Medicaid eligibility after closing.

### **Section h: Substance Abuse Treatment Programs**

The Department of Health reports that there is no data available for the programs covered in this section for the July 2005 to June 2006 period.

### **Section i: Pregnancy Prevention Programs**

In Section i the Department of Health reports on participants in TANF funded family planning programs, the Comprehensive Family Planning and Reproductive Health Program and the Community Based Adolescent Pregnancy Prevention Program (CBAPP). The outreach and education portions of these programs served 143,529 participants. A detailed description of these programs is included in the body of the report, along with district level data on the number of clients receiving any service provided by the programs

### **Section j: Disabled and Work-Limited Recipients**

All data available to meet the requirements of this section were reported in Section c above.

### **Section k: Food Assistance Program**

The Food Assistance Program is no longer an active program.

### **Section l: Domestic Violence**

Section l reports district level and statewide data for the report year on the number of persons indicating a current danger on their domestic violence screening form, the number of persons whose domestic violence assessments showed a credible threat, the number of persons with a waiver from program requirements as a result of domestic violence, and the number of persons with new waivers granted during the year. Also reported is the number of active waivers broken down by the program requirements that are waived (e.g., time limits, employment, IV-D, etc.), as well as the average duration of waivers by waiver type.

For the reporting period, 9,022 persons checked that there was a current domestic violence danger to them on the screening form. During the same period, 5,189 persons underwent a full domestic violence assessment where a credible threat was confirmed,<sup>viii</sup> and 4,723 waivers were granted. Waivers active during the period averaged 4 months in duration.

For the report period, 6,310 persons had domestic violence waivers, including persons whose waivers were granted previous to the report year. These persons had a total of 10,958 active waivers during the report year. The number of waivers exceeds the number of persons with waivers because waivers are specific to the requirement for which the waiver is granted, not a blanket exception from all program requirements. That is, a single domestic violence victim can have more than one waiver, say for instance if the person is exempted from both child support and work requirements. Note also that the number of active waivers for the year, like the number of persons with active waivers, includes those carried over from previous years.

Most domestic violence waivers were granted either from the requirement to cooperate in the establishment of child support (5,655), or from the requirement to participate in employment activities (4,750).

## ENDNOTES

---

<sup>i</sup> The reporting provisions are codified in §149, Part B of Chapter 436 of the laws of 1997. The full text of §149 is reproduced at the end of the report.

<sup>ii</sup> For various programmatic reasons, there are also a number of cases with children in the portion of the SNA caseload that has not timed out from TANF. These cases are part of the analysis of the “singles” caseload. There are also some cases with children in this caseload due to improper coding of case type.

<sup>iii</sup> During this time period, an average of 716 TANF cases per month reached 60 months of assistance, and about two-thirds of these transfer to SNA. This number has steadily decreased over time, and stood at 603 at the end of the report period.

<sup>iv</sup> As mentioned above, in New York State the TANF program consists primarily of FA cases, but also includes a relatively small number of SNA family cases who have their grants restricted because they are mandated into substance abuse treatment. These substance abuse cases are referred to as SNA-FP cases, since they are, like the FA cases, partially federally financed. The SNA MOE cases are primarily SNA cases that would be TANF eligible except that they have exceeded the State 60 month time limit, but also include a relatively small number of cases that would be TANF eligible except that they contain a qualified alien barred from the receipt of TANF.

<sup>v</sup> District level data for TANF and SNA MOE cases will be available for the next report year.

<sup>vi</sup> Sanctions are not broken down by the FA and SNA categories used elsewhere in the report, but by the TANF, SNA MOE (time limit and qualified alien) and SNA Non-MOE (“singles”) categories. This is because sanction policy varies significantly between the two latter categories, even though they are both classified as SNA.

<sup>vii</sup> Fair hearings outcomes described in the report are issues affirmed (i.e., the agency’s determination is deemed correct), issues reversed (i.e., where the agency’s determination is incorrect), issues withdrawn, issues correct when made (i.e., where the agency was correct at the time the decision was made, but changes in circumstances require agency action in favor of the client) and a catch-all “other” category.

<sup>viii</sup> Note that the percentage of domestic violence interviews that result in a credible threat cannot be determined by taking the ratio of interviews that result in a credible threat to the number of persons indicating a current danger. This is because some of the difference between the number indicating a threat and the number where a credible threat was found is due to the client electing not to proceed to the interview stage.

**2006 STATISTICAL REPORT ON THE OPERATIONS OF NYS TEMPORARY ASSISTANCE PROGRAMS**

**NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE**  
**Monthly Average Temporary Assistance to Needy Families (TANF) and Safety Net (SNA) MOE Recipients**  
**in Subsidized of Otherwise Sponsored Work Activities**  
**July 2005 - June 2006**

	<b>TANF</b>	<b>SNA MOE</b>	<b>Total</b>
1. Participating in Work Activities	14,293	5,283	19,575
2. Disregarded from the Participation Rate	26,883	12,752	39,635
Total Disregarded	10,815	5,772	16,586
Child Less Than 1 Year	4,184	715	4,899
Sanctioned	6,631	5,057	11,688
4. Receiving Subsidized Child Care	12,329	9,813	22,143
5. Type of Work Activities			
Subsidized Private Sector Employment	385	200	584
Subsidized Public Sector Employment	736	623	1,360
Work Experience	3,977	2,296	6,273
On the Job Training	66	0	66
Job Search/Job Readiness	350	31	381
Community Service Program	9,434	2,272	11,706
Child Care Provider	0	0	0
6. Hours of Work per Week in Subsidized Activities	28.5	29.3	28.7

Figures are based on sample data from the TANF and MOE quarterly disaggregated reports submitted by New York State for the period of July 2005 to June 2006.

1. Average monthly number of participants in subsidized work activities (subsidized private and public employment, and on-the-job training), work experience, job search/job readiness training, community service programs, or providing child care services to an individual who is participating in a community service program. Recipients may be participating in more than one work activity.
2. Average number of one-parent cases that have a child less than 1 year old who are disregarded from the federal work participation rate calculation (this disregard has a 12 month total lifetime limit) and average monthly number of sanctioned individuals who are disregarded from the participation rate calculation (recipients that are required to participate, are not participating and have been sanctioned for not participating). These sanctioned cases may be excluded from the calculation of the participation rate for up to 3 months during each federal fiscal year.

NEW YORK STATE OFFICE OF TEMPORARY AND DISABILITY ASSISTANCE

**G. Data related to Case Closings.**

Data available to meet the remaining requirements of this section were reported in Sections a, b, and f.

NEW YORK STATE DEPARTMENT OF HEALTH

**H. Data related to Substance Abuse Treatment Programs.**

The Department of Health reports that there is no data available for the programs covered in this section for the July 2005 to June 2006 period.

**2006 STATISTICAL REPORT ON THE OPERATIONS OF NYS TEMPORARY ASSISTANCE PROGRAMS**

**Accomplishments of Family Planning and CBAPP Programs funded by TANF Funds for the period July 2005 to June 2006**

TANF funds have been utilized to significantly expand the Department of Health’s Comprehensive Family Planning and Reproductive Health Program and the Community Based Adolescent Pregnancy Prevention Program (CBAPP). The Family Planning Program provides comprehensive family planning and reproductive health services including medical services, health education and outreach to low income, uninsured women. The CBAPP Program provides peer and parent education, youth development and outreach to high-risk adolescents.

Funding was provided to 56 family planning agencies that provide services in 210 service sites. These providers used TANF funds to continue expanded outreach and education activities in community settings, including schools, to educate children and adults regarding reproductive health and to provide programs to prevent adolescent pregnancy. TANF funding has provided an opportunity to focus the expansion of the program on state and federal priorities including:

- Provision of community education, public information and counseling to prevent adolescent pregnancy and increase access to clinic services for teens who are already sexually active;
- Increase outreach to women not likely to seek services, including traditionally under-served minorities and homeless and substance abusing women; and
- Improved access in under-served areas to women and adolescents at risk for unintended pregnancy.

Family Planning health educators work in schools, in conjunction with community-based organizations, and other youth-serving organizations to provide education on issues such as contraception, abstinence, HIV/AIDS and sexually transmitted diseases. They participate in health fairs, organize community youth forums and parent-teen retreats, and outreach to high-risk populations. Many of the larger agencies employ several educators. Family Planning Program educators provided more than 11,080 education and training sessions for adolescents and adults, and reached an audience of 105,462 individuals in the past year.

<b>Audience</b>	<b>Sessions</b>	<b>Participants</b>	<b>% of Total Sessions</b>	<b>% of Total Participants</b>
Youth (1-12)	437	6,584	4%	6%
Teens	6,796	38,696	61%	37%
Parents/Adults	2,722	39,868	25%	38%
Professionals	691	10,662	6%	10%
Families	434	9,652	4%	9%
Total Programs	11,080	105,462	100%	100%

**Accomplishments of Family Planning and CBAPP Programs funded by  
TANF Funds for the period July 2005 to June 2006**

These figures represent an additional 455 program sessions conducted compared to the previous year, but with fewer overall participants. Despite decreases in the number of sessions offered to all other audiences in 2005 compared to 2004, agencies reported a 12 percent increase in requests for teen educational programs. While it appears that 38 percent fewer participants attended the teen sessions, there was a comparable increase (34 percent) in the number of participants in the family sessions.

Despite a very slight (0.3 percent) decrease in total clients, Family Planning Program providers continued their successful expanded outreach and education programs, expending all available TANF funds. The attached chart shows on a county-specific basis the 143,529 individuals served in the reporting period. The income level of the vast majority of these clients would indicate that they are eligible for TANF, and the remainder is needy.

For the 2005-2006 period, NYS's Health Care Reform Act (HCRA) funding replaced approximately 80 percent of the funding normally provided by TANF dollars. Projections of pregnancies and births averted based on this level of TANF funding are not realistically comparable to prior years' calculations. Had TANF funding been comparable to that of prior years, it is estimated that 20,204 pregnancies and 12,971 births would have been averted, thus attributing increases of 1.8 percent and 1.2 percent respectively to TANF funding. In combination with the funds saved from prevention of unintended pregnancies, which cost many thousands of dollars each to the state and federal governments for Medicaid prenatal and delivery costs, the TANF initiatives in family planning have more than repaid themselves in savings.

CBAPP programs work with peers, schools, parents, community health and human service organizations, local governments, businesses and the media to reduce adolescent pregnancy in targeted high-risk communities. Twenty-six CBAPP contractors provide services in 70 high-risk areas in the state. Major program strategies include:

- Providing community information and education to sensitize the public about the local need to address the prevention of unintended pregnancy among adolescents;

- Promote abstinence and delay the onset of sexual activity among all adolescents;

- Expand educational, recreational and vocational opportunities for teens to provide alternatives to sexual activity and develop skills that can lead to higher earning power and reduce the need for public assistance; and,

- Provide access to comprehensive reproductive health care services to sexually active teens to prevent pregnancies, sexually transmitted diseases and HIV infection.

During this time period, CBAPP providers recruited 1,794 peer educators and provided 1,131 education sessions. These peer educators led 1,150 school/community education sessions for a total of 16,066 participants. CBAPP providers also provide individual and group counseling to promote individual responsibility. A total of 8,157 teens received individual counseling while 9,346 received counseling through 2,339 group counseling sessions. CBAPP emphasizes training sessions with the specific purpose being to develop alternatives to sexual activity. 2582 sessions that included 16,793 participants focused on educational priorities. Vocational information was stressed to 6,974 participants at 2,691 sessions, and finally, 31,366 teens participated in 2,295 recreational sessions. .

An emphasis is also placed on providing information and education to parents and other adults to address the prevention of unintended pregnancy. During this period, 4,526 parents participated in 550 educational sessions, 4,417 health and human service workers participated in 320 educational sessions, and 785 teachers attended 126 educational sessions. Such strategies implemented through CBAPP aim to build community and individual awareness and support for teens in the prevention of unintended pregnancy.

There are a number of family planning agencies that also receive CBAPP funding. As a result of the co-location of programs, CBAPP clients often benefit from family planning health education and medical services.

## Welfare Reform Act of 1997

(section 149 of Part B of Chapter 436 of the Laws of 1997)

S 149.

1. The department of social services or its successor agencies and the department of labor shall collect data related to the operation of public assistance programs including, but not limited to, information that must be submitted to the department of health and human services pursuant to the personal responsibility and work opportunities reconciliation act of 1996 (P.L. 104-193) and any other provision of federal or state law or regulations governing programs administered under title iv-a of the social security act or the social services law. Social services districts shall assist each agency in accumulating such data in accordance with instructions from the appropriate agency.
2. Each agency shall make reasonable efforts to collect and maintain the data required pursuant to this subdivision. Data collection shall begin as soon as practicable, but in no case later than upon the completion of the redesign of the welfare management system and the completion of welfare to work caseload management system. The responsible agency shall collect the data related to applicants and recipients of public assistance programs established pursuant to the personal responsibility and work opportunities reconciliation act of 1996 (P.L. 104-193) and the social services law including, but not limited to, the following:
  - a. Data related to applicants seeking public assistance including but not limited to:
    1. Number of applicants accepted to participate in each program;
    2. Number of applicants who are denied public assistance and the reason for denial;
    3. Number of applicants who were previous recipients of public assistance on or after December 2, 1997 including length of time previously on assistance; reason for initial termination; length of time between termination and reapplication; and reason for reapplication; and
    4. Number of applicants who have resided in the state for fewer than twelve months at the time of application.
  - b. Data related to recipients of public assistance including but not limited to:
    1. Number of terminated recipients of public assistance and reason for termination; and
    2. Number of recipients that move between public assistance programs.
  - c. Data related to work activities subsidized or otherwise sponsored by the department of social services, its successor agencies, the department of labor, or social services districts including but not limited to:
    1. Number of recipients participating in work activities;
    2. Number of recipients receiving an exemption from participating in work activities;
    3. The duration of and reasons for such exemptions;
    4. Number of participants receiving subsidized child care and the number of exemptions granted due to lack of available child care;
    5. The type of work activities;
    6. Hours of work per week per recipient;
    7. Duration of enrollment in such work activity;

## **Welfare Reform Act of 1997**

(section 149 of Part B of Chapter 436 of the Laws of 1997)

8. Reason for termination from work activity;
  9. Number of requests for administrative hearings related to work activity participation including the nature of such requests by general categories and the outcome of such hearings;
  10. Number of participants receiving subsidized transportation services;
  11. Participant retention in work activities by type of work activity;
  12. Length of time before assignment to a work activity;
  13. Number of recipients changing work activity assignments and reasons for such changes; and
  14. Expenditures by social services districts in support of work activities.
- d. Data related to unsubsidized work activities including but not limited to:
1. Number of recipients hired;
  2. Initial rate of pay by either annual salary or wage basis;
  3. Retention rates;
  4. Means of obtaining unsubsidized employment including, but not limited to, referral by the social services district and direct contact with employer; and
  5. Number of participants receiving subsidized child care and/or transportation services.
- e. Data related to recipient training and education activities including but not limited to:
1. Number of recipients in training or educational activities by type of activity;
  2. Number of recipients mandated to attend training or education activities that fulfill work participation requirements;
  3. Length and duration of training or education activity including the number of hours per week and duration;
  4. Number of recipients receiving subsidized child care and/or transportation services;
  5. Number of recipients transferred to work activities;
  6. To the extent available, the number of recipients who obtain work directly from training or education activities including starting salary and employee retention rates; and
  7. Expenditures by social services districts in support of training and education activities.
- f. Data related to recipient sanctions including but not limited to:
1. Number of sanctions, by type of sanction;
  2. Number of sanctions with defined minimum period, by type of sanction;
  3. Average length of sanction until recipient compliance, by type of sanction;
  4. Amount of sanction, by type of sanction;
  5. Period of time starting on or after December 2, 1996 that the participant was in the program prior to the sanction;
  6. Number and outcome of administrative hearings related to sanctions, by type of sanction; and
  7. Number of sanctions against entire assistance unit.

**Welfare Reform Act of 1997**  
(section 149 of Part B of Chapter 436 of the Laws of 1997)

g. Data related to case closings including but not limited to:

1. Number of case closings;
2. Reason for case closing including, but not limited to, self-termination without reason;
3. Length of time receiving assistance on or after December 2, 1996 before case closing;
4. On an aggregate basis, the length of time recipients do not receive public assistance in New York state following case closing occurring on or after December 2, 1996; and
5. Number of former public assistance recipients receiving subsidized child care and/or transitional medical assistance.

h. Data related to substance abuse treatment programs including but not limited to:

1. Number of recipients receiving substance abuse treatment services for which the cost of such services is paid for by the social services district using public assistance monies;
2. Length of reimbursed recipient participation in treatment program; and
3. Types of substance abuse treatment programs receiving reimbursement from social services districts.

i. Data related to pregnancy prevention programs funded through federal monies received by the state pursuant to title iv-a of the social security act including but not limited to:

1. Number of program participants;
2. Duration of program participation; and
3. Types of services provided.

j. Data related to disabled and work limited recipients of public assistance pursuant to provisions of the welfare reform act of 1997 including, but not limited to:

1. Number of persons applying for public assistance that are screened;
2. Number of current recipients of public assistance screened;
3. Number of persons applying for public assistance that are found to be disabled;
4. Number of current recipients of public assistance found to be disabled;
5. Number of persons applying for public assistance found to be work limited;
6. Number of current recipients of public assistance found to be work limited;
7. Duration of finding by category;
8. Number of changes in work activity exemption status;
9. Number and outcome of administrative hearings related to the disability screening and the determination of work activity exemptions; and
10. Data relating to work and training and education activities pursuant to subsections c, d and e of this section.

h. Data related to the food assistance program including but not limited to:

## **Welfare Reform Act of 1997**

(section 149 of Part B of Chapter 436 of the Laws of 1997)

1. Number of applicants under eighteen years of age by chronological age;
2. Number of applications denied by reason for denial;
3. Number of recipients under eighteen years of age by chronological age and the average amount of food assistance benefits per recipient issued by the social services district;
4. Number of recipients under eighteen years of age by case and by household and the average amount of food assistance benefits issued per case and per household by the social services district;
5. Number of recipients under eighteen years of age in a case and/or in a household where other individuals in the case and/or household are in receipt of federal food stamp benefits and the average amounts of federal and state food stamp benefits issued per case and/or per house hold by social services district;
6. Number of recipients under eighteen years of age in a case or household receiving other public assistance benefits and the average amounts of food assistance benefits issued per recipient and per public assistance case by the social services district;
7. Number of case closings for cases where the recipient is under eighteen years of age by reason for case closing including but not limited to case closing as a result of naturalization;
8. Number of applicants applying for food assistance benefits where the primary reason for potential eligibility is a disability as defined by provisions of this act establishing a food assistance program;
9. Number of applications denied by reason for denial;
10. Number of disabled recipients by chronological age and the average amount of food assistance benefits per recipient issued by the social services district;
11. Number of disabled recipients by case and by household and the average amount of food assistance benefits issued per case and per household by the social services district;
12. Number of disabled recipients in a case and/or in a household where other individuals in the case and/or household are in receipt of federal food stamp benefits and the average amounts of federal and state food stamp benefits issued per case and/or per household by social services district;
13. Number of disabled recipients in a case or household receiving other public assistance benefits and the average amount of food assistance benefits issued per recipient and per public assistance case by the social services district including, but not limited to, receipt of federal and/or state supplemental payment made pursuant to title xvi of the social security act;
14. Number of case closings for cases where the recipient is disabled by reason for termination including but not limited to case closing as a result of naturalization;
15. Number of applicants applying for food assistance benefits where the primary reason for potential eligibility is that the applicant is elderly as defined by provisions of this act establishing a food assistance program;
16. Number of applications denied by reason for denial;
17. Number of elderly recipients by chronological age and the amount of food assistance benefits per recipient issued by the social services district;
18. Number of elderly recipients by case and by household and the average amount of food assistance benefits issued per case and per household by the social services district;

## **Welfare Reform Act of 1997**

(section 149 of Part B of Chapter 436 of the Laws of 1997)

19. number of elderly recipients in a case and/or in a household where other individuals in the case and/or household are in receipt of federal food stamp benefits and the average amount of federal and state food stamp benefits issued per case and/or per household by the social services district;
20. Number of elderly recipients in a case or household receiving other public assistance benefits and the average amount of food assistance benefits issued per recipient and per public assistance case by the social services district including, but not limited to, receipt of federal and/or state supplemental payment made pursuant to title xvi of the social security act; and
21. Number of case closings for cases where the recipient is elderly by reason for termination including but not limited to case closing as a result of naturalization; and
22. Number and outcome of administrative hearings related to the food assistance program by general category.

h. Data related to the domestic violence screening process including but not limited to:

1. Number of applicants and recipients screened;
2. Number of positive findings;
3. Number of waivers by category granted as a result of a positive finding; and
4. Duration of such waiver.

3. To the extent possible, the data collection activities required by this act shall be designed to collect data in the least expensive and least time consuming manner possible. Scientifically acceptable statistical sampling methods may be used to collect and maintain data on an aggregate basis when authorized by the department of health and human services or when the commissioner of social services or commissioners of its successor agencies determines that collection of such data by any other means is not practicable or would result in significant additional costs. To the extent that statistical sampling is used to collect and maintain data, and unless otherwise required by the department of health and human services, the sample size shall be no larger than the sample size required by the United States department of agriculture for food stamp quality control purposes pursuant to the food stamp act of 1977 and subsequent amendments.
4. The commissioner of social services or commissioners of its successor agencies, and the commissioner of labor shall provide reports summarizing data collected pursuant to this act to the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee. The first such report shall be provided to the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee no later than December 2, 1998 and annually thereafter. The commissioner of social services or the commissioners of its successor agencies, in conjunction with the commissioner of health and the commissioner of labor, shall provide the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee with an annual report summarizing data collected pursuant to this act.

## **Welfare Reform Act of 1997**

(section 149 of Part B of Chapter 436 of the Laws of 1997)

5. Each agency shall provide the temporary president of the senate, the chairperson of the senate finance committee, the speaker of the assembly, and the chairperson of the assembly ways and means committee with all reports filed with the department of health and human services pursuant to the data collection and reporting requirements of the personal responsibility and work opportunities reconciliation act of 1996 (P.L. 104-193).
  
6. The commissioner of social services or the commissioners of its successor agencies, in conjunction with the commissioner of labor, and the commissioner of health shall develop a plan to provide the legislature with the ability to have online access to the welfare management system and the welfare to work caseload management system upon completion of the redesign of the welfare management system and implementation of the welfare to work caseload management system for purposes of obtaining aggregate program data. Such plan shall provide for security measures necessary to ensure the confidentiality of data residing on the welfare management system and the welfare to work caseload management system in conformance with all applicable federal and state laws and regulations. The plan shall be submitted to the temporary president of the senate and the speaker of the assembly no later than February 15, 1998.
